Our Cover

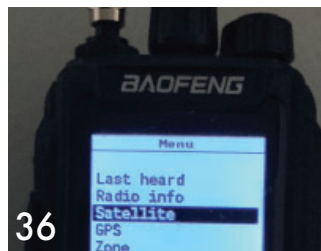

The Deep Space Exploration Society (DSES) in Colorado has enjoyed ham radio and radio astronomy activities since 2009, when they bought a 60-foot dish antenna. More recently, they managed to save a 30-foot parabolic dish that was going to be sold for scrap. Read about the "rescue" of the dish and the group's plans for it in "Saving a 30-Foot Parabolic Dish." [Elaine Hambly, K0ARR]
